10. SIGNIFICANCE (use additional sheet if necessary):

a. Architect/Builder/Engineer:  
NOT KNOWN

b. Style/Period: Late Victorian farmhouse

c. Date(s): 1914?

The McAndrews/Gallaher residence is a significant house that contributes to the architectural variety of South Hills.

According to many sources, Frank J. McAndrews was the first resident of the house. The earliest year he is listed at that address is 1914. The house brings to mind the farmhouses of the Late Victorian period. The exterior walls are of beveled weatherboard, and the corners are set off by squared wood piers. The entrance, which was probably originally on the opposite side of the house, is under a small portico on squared columns. The windows have plain trim and shutters.

Frank J. McAndrews was the Workmen's Compensation Commissioner for West Virginia, and was jailed for embezzlement on the job.
