GRANT PROGRAM PURPOSE: To locate, identify and evaluate archaeological resources for their eligibility to be included in National Register of Historic Places.

ALLOWABLE ACTIVITIES

SURVEY: Archaeological survey consists of a complete and systematic inspection of a designated study area to locate prehistoric and historic archaeological sites. It involves the investigation of both surface and subsurface contexts. A research design must be submitted and approved prior to the initiation of field work. The research design must identify the qualified archaeologist who will supervise field work and laboratory analysis of any cultural materials recovered from the site. The field work must be conducted and a final report must be prepared in accordance with Guidelines for Phase I, II, and III Archaeological Investigations and Technical Reports (WVSHPO 2001). An archaeological site form must be completed for each site identified. All collected artifacts must be curated in accordance with the West Virginia State Historic Preservation Office Curatorial Guidelines and/or 36CFR79: Curation of Federally-owned and administered Archaeological Collections.

EVALUATION: This activity consists of conducting limited archaeological excavation and archival research in order to determine whether a site is eligible for inclusion in the National Register of Historic Places. A research design must be submitted and approved prior to the initiation of field work. The research design must identify the qualified archaeologist who will supervise field work and laboratory analysis of any cultural materials recovered from the site. The field work must be conducted and a final report must be prepared in accordance with Guidelines for Phase I, II, and III Archaeological Investigations and Technical Reports (WVSHPO 2001). All collected artifacts must be curated in accordance with the West Virginia State Historic Preservation Office Curatorial Guidelines and/or 36 CFR 79: Curation of Federally-owned and administered Archaeological Collections.
